

MEPROZET KOŚCIAN S.A.
64-000 Kościan ul. Gostyńska 71

Dear Sirs,

MEPROZET KOŚCIAN S.A. company has been working on the agriculture market for forty years. We manufacture wide range of slurry tankers with capacities from 2300 litres to 26 000 litres as well as additional equipment cooperating with them. Apart tankers which are in standard designed to fertilize fields in our offer there can also be found special tankers

for extinguishing fires in their terminal stages, hydroseeding, maize fertilizing and for spreading with UAN fertilizer. Furthermore our company manufactures slurry containers in MULTILIFT hook system which can be mounted on trucks or agricultural trailers.

In our slurry tankers we use components of a well known and proven manufacturers like: JUROP (compressors), Vogelsang (mixers), RIV and MZ (gate valves), ADR and FAD (chassis).

Our products were frequently awarded on different exhibitions and agricultural fairs. We operate with success not only on Polish market but also in such countries as: Sweden, Norway, Finland, Estonia, Latvia, Lituania, Russia, Belarus, Ukraine, Czech Republic, Slovakia, Bulgaria, Romania, Hungary, Germany, Greece and even Turkey.

We invite to cooperation all companies interested in sale our high quality slurry tankers.

Best regards
