

Company was founded in 2005 as a continuation of Bendiks parent company production activities.

We sell alternators and starters for all kinds of motors and vehicles.

Our firm specializes in regeneration of alternators, starters and components.

Highest quality service is guaranteed by technical knowledge of our experts and engineers, extensive range of spare parts and properly fitted, modern electromechanical workshop specialized in repairs and tests.

Easy and friendly customer service and certain, timely shipments set us apart from the competition
