

Dear Sirs

We are pleased to introduce to you ZPAS company, an EU manufacturer of 19" data communication and server enclosures. We are looking for cooperation with partners in Egypt.

We are a leading Polish producer of cabinets, data, power cabinets, prefabrication and implementation of low-voltage, energetic and warranted power supply installations. ZPAS is able to provide solutions adjusted to specific client's needs.

Since the very beginning of its business activity in 1973, ZPAS has produced a variety of industrial cabinets and enclosures. Products manufactured by ZPAS are mainly used as supporting elements of advanced telecommunications, IT and electric power systems. Due to new technologies and advanced design solutions, ZPAS developed a uniform and comprehensive product portfolio.

We employ more than 500 employees and now we are one of the largest Polish company in this sector on the Polish market. The total manufacturing plant area is over 30 000 m<sup>2</sup> and the production lines are based on the most modern CNC machines "AMADA" and "SALVAGNINI" brands.

The ZPAS Group holds the ISO 9001:2000 Quality Assurance System Certificate and the ISO 14001:1996 Environmental Management System Certificate.

ZPAS S.A has two manufacturing plants. They are focused on manufacturing large and mid lot of industrial and data communication enclosures, wall-mounted cabinets and customized goods based on customers' technical documentations. We are able to produce goods from stainless steel and aluminum depends on the weather conditions requested. As a company with a long-term tradition, we hold the high quality products (with five-year warranty) produced according to the standards of the European Union.

We are manufacturing approximately 7 500 pieces of both – floor-standing and wall-mounted enclosures monthly. Our machine park allows us to reach the production capacity on the level of 15 000 pieces per month. More than 60% of total production is dedicated for foreign markets. The goods are sold through a distribution network in over than 30 countries. Many of our Customers are well-known brand: ABB, CERN, Areva, Cooper Industries, Siemens, Lucent Technologies, Elektroskandia, Alcatel-Lucent, Molex, Sony Ericsson

ZPAS NET deals with design and production of aluminum outdoor enclosures, structured cabling for telecommunication and server cabinets, mimic boards, control desks, control and information systems. ZPAS NET is also the integrator of ZPAS products.

We are interested in cooperation with you. Modern, high-tech equipment and highly-educated, fully trained personnel ensure that the highest quality standards and flexibility is maintained throughout the company.

Sincerely
