

Reg. no.ZM54./DOiPP/2014

Barak, 18-02- 2014

SIGMA joint-stock company is a private company that operates in the market since 17 May 1996. Originally, the company's head office was located in Bogdanka, now headquarters is located in the province of Lublin, in the village of Barak, near Lublin. In addition, in Poland operates a regional office SIGMA - SIGMA Silesia in Knurów.

The main objective of the company SIGMA SA in accordance with the maxim "SYSTEMATIC IMPLEMENTATION OF NEW SOLUTIONS", implementation of innovative solutions for the design and production of machines, equipment and comprehensive technology for the mining industry, technology and energetics.

Many years of experience, our own design office technology, modern machinery and powerful, highly qualified personnel and close collaboration with Research and Development Center "Hajduk Group" and other units that promote the implementation of innovative technologies, allows SIGMA implementation of innovative solutions, each tailored to the individual needs of clients, maintaining the highest quality of product.

Combining years of experience and the ability to analyze the precise requirements of our partners, we provide efficiency and functionality of the proposed solutions. A very wide range of our machines such as air-ventilators, belt conveyors, underwall chain conveyors, dust collectors, allows us to offer complex technological systems for: headings, conducting mining operations and ancillary works. Our products are tested in the technical and scientific research units.

Mining machinery and equipment manufactured by SIGMA SA works in Russia, Argentina, Romania, Vietnam, Ukraine, Belarus and all coal mines in Poland. We are recognized and respected partner in the market. We work with many global companies such as: CATERPILLAR, SANDVIK, Kopex, GLINIK. Therefore, we propose holding talks on the possibility of mutual cooperation subject of mines and mining companies in developing new technologies, research and implementation of existing solutions. The combination of the potential of both sides gives grounds to achieve tangible results.

Yours sincerely
