

The history of Griltex began in 1962 in France. Griltex products have been present on the Polish market since 1996. Griltex Polska on the market concentrates on manufacturing, distribution and sales of high quality plastic construction materials – mainly geosynthetics, roof screens, wall barrier screens and foundation foil sheets. We also make sealing/stripping and insulations of engineering structures using geosynthetics

The activity of our company are concentrated on three areas. They are:

- 1. Manufacturing and distribution of insulation foil sheets** (the offer includes mainly pressed HDPE damp proof foil sheets and insulation foil sheets – polyethylene and polypropylene).
- 2. Packaging, manufacturing and distribution of geosynthetics used mainly in engineering structures, road construction and hydraulic engineering** (the offer includes barrier and filtration geotextiles and stabilization geotextiles: TYPAR, PLANTEX, NAPTEX, geoNETEX, agrotextiles for mulching and PLANTEX anti-root screens, drainage geocomposites, drainage geocomposites GXP-DREN and B1000 & B2000, geomembranes and geogrids, geocrates and anti-erosion mats for slopes).
- 3. Seals and insulations of various engineering structures** (the offer includes welding of PVC and HDPE foils with any dimensions). These include evaporation/storage reservoirs, fire fighting tanks, sewage treatment plants, landfills, fuel bases and petrol stations, industrial waste landfills, water barriers, levees, waterholes.

Consulting, distribution and services by Griltex Polska are controlled by a documented quality management system conforming to ISO 9001:2000. Certificate Bureau Veritas Quality International no. 8000273.

With the course of time we have expanded both the size of sales and the value by multiple times. We export, inter alia, to: Azerbaijan, Belgium, Burkina Faso, Czech Republic, Denmark, Finland, France, Greece, Lithuania, Latvia, Russia, Slovakia and Italy.

If your company is interested in our product offer, please contact us.
