UNI-MASZ – BRIEF HISTORY

Launched business since 1996, allowed us to gain a lot of experience and wide reference list of customers. **UNI - MASZ H & M Juszczyk Sp.j.** based in Panieńszczyzna (commune Jastków near / Lublin) works in directions: machinery and equipment construction, innovation and new technologies in food processing.

UNI-MASZ – OUR MISSION

We specialize in the production of equipment for technology transport, pre-treatment of fruit and vegetables, construction of technological lines, machines for sorting, washing, crushing, mixing, steaming, glazing, weighing, packing, metal detection etc.in accordance with HACCP and EU standards. The row materials which can be treated are: root and leafy vegetables, fresh or frozen fruits, herbs, champignons, mushrooms. Manufactured devices are made of stainless steel and materials approved for contact with a food. Our qualified and experienced staff can fulfill various, individual orders according to our own or entrusted projects. We use our own modern machinery.

UNI-MASZ – FUTURE

The company carries out innovative projects thanks to European Union funds. We intensify our efforts to acquire new customers and enter new markets. We are present at the International Fair and Exhibitions, participate in trade missions. Recipients of our equipment on a large scale are the companies processing fruits and vegetables and cold stores, among them Materne, Agrana together with its daughter company in Egypt, Hortino, Herbapol and many companies from Belarus, Ukraine and Russia.

UNI-MASZ – INVITATION TO COLABORATION

Our strength lies in our ability to offer our clients effective and efficient solutions which are the result of combining our rich experience, use of modern technology and good service and customer support. Professionalism and integrity ensures satisfaction for every customer, from the smallest to the largest businesses. Our machines and equipment are of very high quality, easy to use and maintain.
